The Sound Choice for New Hammond Organs

Mondri Series

The Mondri Organ is incorporated in an elegantly designed console. A striking cabinet with interesting details that will enhance your living with a fine and attractive timeless styling, appealing to almost anyone.

The impressive musical capabilities have made this line of instruments into a class of their own., also due to a very clever mounting of the speakers throughout the console, without any visible openings. A balance control allows volume adjustment of the upper and lower speakers.

The Mini Acoustic System (MAS) and the Miuni Loudspeaker System (MLS) have been effectively incorporated in the console, creating a spacious and impressive sound character, surprising both the organist and the congregation time and again. Although Mondri Organs are frequently installed in homes, these instruments are also highly suitable for installation in churches and institutions. In fact these instruments will meet and exceed the demands any place where a top quality and highly versatile instrument is required.
