*The Sound Choice for New Hammond Organs*

## Midi Pedal Board

- The Midi Pedal board exists in three versions:
  - 27 note flat parallel
  - 30 note flat parallel
  - 32 note radial concave
- The Midi Pedal boards feature one Midi Out, inbuilt Power Supply and Power On/Off. It is a solid state unit, ready to be connected to any Midi keyboard or Midi controlled product, provided a sound generating system is available. All 16 channels Midi channels may be selected by means of a dipswitch, easily accessible from the back of the Pedal board.
- The Pedal board comes in two finishes: light and dark oak. It is made of solid wood and includes a metal bar to prevent the Pedal board from warping, thus allowing heavy duty use. The contacts are mounted in glass tubes, so-called reed switches being inaccessible for dust and humidity.
- A matching bench is available as an option.
- **Dimensions**
  - 27 note flat parallel*
    - Height 145 mm
    - Width 1037 mm
    - Depth 830 mm
  - 30 note flat parallel*
    - Height 145 mm
    - Width 1194 mm
    - Depth 830 mm
