The Sound Choice for New Hammond Organs

Princeton – HP1

Description:

The Princeton HP-1 is a simple and affordable piano that offers high quality piano sounds at a budget price. The cabinet is elegantly styled in a simulated rosewood finish and the full hammer action and advanced PCM technology are components you would expect only in higher priced models. There are 14 built in sounds that can be combined or 'split' and there is a convenient built-in two-track sequencer and practice metronome. There is a headphone connection for private practice or teaching situations. Perfect for education or performance, the Princeton HP-1 is the perfect combination of elegance & technology - at an ultra-affordable price!

Specifications:

- 88 full hammer weighted keys to enable development of finger strength and dexterity
