The Sound Choice for New Hammond Organs

Hammond XK System Traditional

The heart of this new system is our famous XK-3c keyboard. This keyboard utilizes the same "long loop" sampling as our New B-3 organ. When the XK-3c keyboard is outfitted with the optional lower manual and cabinet, stand, 25-note pedalboard and bench, the XK System resembles both in looks as well as in sound, the famous Hammond B-3. It is the only keyboard product on the market today in which a single-manual type keyboard (XK-3c) can be converted to a double-manual type keyboard and back to a single-manual type keyboard (XK-3c) quickly without any tools or technical experience. You can choose which of the many affordable optional accessories you want and when you wish to purchase them.

* C-3 style panels
