This new instrument does what has never been done before, offering you the classic "tone-wheel" sound by utilizing 96-DIGITAL TONE WHEELS! This new VASE III sound-generator now makes it possible to reproduce all of the characteristics of the vintage Hammond B-3. Additionally, the Hammond XK-3c houses two INTERNAL VACUUM TUBES that will change continuously from PRE-AMP MODE to OVERDRIVE MODE via control knob.

The new Hammond XK-3c also includes 12 REVERSE COLOR KEY PRESETS, 3 SETS OF DRAWBARS, A 2-ROTOR DIGITAL LESLIE, and A 6-POSITION ROTARY VIBRATO-CHORUS KNOB, all the features you would expect to find on a Hammond Vintage B-3.

The XK-3c will perform like no previous tone-wheel Hammond could ever do, with features like a library of 132 PROGRAMMABLE PATCHES allows you to save and store your own Drawbar combinations, MIDI information, whatever you like. And just think, all this in a 43 pound package that won't break your back or your budget.
